I would like to thank you for your patience while going through this change of Insured By Darlene. I have been working hard behind the scenes to bring you some new products along with a new look.

I'm so excited for all the changes that have been happening and over the next few weeks/months you will see what I have been working on for you.

The Advisor Chat is back, my monthly newsletter will feature tips, industry changes, policy change information and introductions to new amazing products being offered here.

## COVID-19 and your Insurance Policy

As we are hunkered down in self isolation and practicing social distancing, you are on my mind. I am here for you! This is such an unsettling time for all us.

We are adapting to a new way of living for the time being. With most of us working from home and staying in, and the communication networks are working overtime and maybe slower, our patience is being tested. We will get through this, together.

I am here to assist you. I'm working with clients to review their current policies to ensure their coverage is the way they want it. from beneficiary changes; applying for additional insurance and ensuring their health & dental plans are all meeting their needs. Should you have a policy that you would like me to take a look at I'd be happy to do so

The Insurance Companies are continuously monitoring the situation and ensuring their support to all of us. They are open with essential staff and many working from home. They are continuing to navigate this global situation we are in.

As the situation is changing daily I will make sure to keep you all informed and updated as best I can. Please follow me on my Social Media platforms as well.

There are many ways to do a meeting, video conferencing is a great way to stay connected and keeping to the social distance guidelines.

Remember to be kind and help our fellow neighbours in need. My thoughts and my thanks are with our essential service persons, who are out on the front lines - stay safe everyone!

Darlene
